

## **OnProcess launches a global donation campaign in support of Ukrainian refugees**

**Boston, MA:** OnProcess Technology, a global pioneer powering the world's circular service value chains, today announced that it is launching a global six-month donation campaign aiming to provide financial aid to Ukrainian refugees.

OnProcess is setting up a fund to help house and support a number of families, initially in Bulgaria, where the company has more than 270 employees. Bulgaria is among the countries welcoming many Ukrainian refugees, with hundreds of thousands of Ukrainians (mostly children, women, and elderly) currently residing in the country with temporary protection status.

The one-month cost to support one family of up to four people in Bulgaria is approximately \$2,000, which includes accommodation, allowance and 3 meals per day. OnProcess have already taken in 5 families, supported by the company and the fund raising initiatives of its employees. The company is also helping to find education for the children and work opportunities for the adults. By launching a global donation campaign, OnProcess intends to engage with its customers, vendors and partners, to see if they would also like to contribute, with the aim of supporting as many families as possible for up to six months.

Oliver Lemanski, CEO of OnProcess said: "These families have had traumatic experiences, often with fathers and husbands being left behind in Ukraine to fight, and mothers, children and grandparents finding themselves alone in a foreign land with nothing. We at OnProcess cannot stay indifferent to this human suffering, and want to do something proactive to help these families – even if it is just a few. But we know that together with our clients, vendors and partners, we can do so much more, and help more vulnerable Ukrainian families in Bulgaria and beyond".

***All donated money will go directly to helping Ukrainian families stay sheltered and safe. If you would like to donate, please go to <https://fundly.com/project-shelter-2>, or email us at [shelter@onprocess.com](mailto:shelter@onprocess.com) for the Project Shelter bank account details or any questions you may have.***

### **About OnProcess Technology, Inc.**

OnProcess supplies technology and services that power the world's circular service supply chains. Providing managed services and digital transformation expertise that streamlines processes, maximizes customer lifetime value, and improves 'circular' sustainability goals, OnProcess is a trusted advisor to many of the world's leading computer, networking, med-tech, wireless, telecommunications, and IT companies.
